

EXECUTIVE PROJECT INTELLIGENCE REPORT

Comprehensive Project Analytics & Financial Audit

Project Name	Phase 2 Unique High-Fidelity Test Est Recipe Description
Location	Test Client Inc.
Date Generated	01 Jun 2026

This intelligence document compiles cross-project database analytics from priced BOQs, subcontractor adjudications, and parametric benchmarking guides. Confidential under corporate review.

Table of Contents

Executive roadmap outlining primary project metrics, confidence scoring, cost drivers, and procurement adjudications.

Document Section	Description	Page No.
1. Financial Executive Brief	Consolidated financial bridge, gross project bid, overheads, and target profit margins.	Page 3
2. Pricing Confidence & Risk Analysis	Analysis of Library vs. Quote vs. Plug rates, and log of extreme unit rate variance outliers.	Page 4
3. Top Value Drivers & Material BOM	Top 10 Pareto value drivers, and consolidated bill of materials (BOM) logistics volumes.	Page 5
4. Supply Chain & Cost Modelling Benchmarking	Subcontractor award package variance audits and GFA parametric \$/m² cost benchmarks.	Page 6

Note: Page numbering in this report aligns with the total pages displayed in the report footer. The contents of each section are generated dynamically from live project cost estimates and priced BOQs.

1. Financial Executive Brief

Consolidated cross-project pricing dashboard showcasing baseline resource net costs, overhead allocations, and expected profitability margins.

TOTAL GRAND BID ₹ 14,375.00 Gross project bid price	TOTAL NET COST ₹ 12,500.00 Base resources cost
PROFIT MARGIN 10.00% Project target profit	OVERHEAD RATE 5.00% Operational overhead

Net-to-Gross Financial Bridge

Component Layer	Factor Rate	Calculated Amount
Base Net Cost	-	₹ 12,500.00
Project Overhead Markup	+ 5.00%	₹ 625.00
Profit Margin Markup	+ 10.00%	₹ 1,250.00
FINAL ESTIMATE GRAND TOTAL BID	-	₹ 14,375.00

2. Pricing Confidence & Risk Analysis

Evaluates the Pricing Confidence Index (PCI) by source classification. High dependency on manually plugged rates represents premium bid risk.

Pricing Mix Source Category	Confidence Rating	Priced Volume	Mix %
Gross Rates (SOR / Library Link)	HIGH CONFIDENCE	₹ 14,375.00	100.0%
Subcontractor Allocations	MARKET VERIFIED	₹ 0.00	0.0%
Manual Plug Rates	HIGH ESTIMATING RISK	₹ 0.00	0.0%
Provisional Sums	FIXED RISK	₹ 0.00	0.0%
PC Sums	FIXED RISK	₹ 0.00	0.0%
Dayworks	VARIABLE COST	₹ 0.00	0.0%
TOTAL SOURCE COMPOSITION VALUE	-	₹ 14,375.00	100.0%

Pricing Progress & Review Flags Summary

Total Quantified BOQ Items	1	Priced Progress Ratio	100.00%
Total Priced BOQ Items	1	Flagged Outliers Logged	0 Flags

3. Top Value Drivers & Material BOM

Visualizes the 20% of BOQ items that represent 80% of project costs, alongside operational quantities aggregated from composite buildups.

Top Pareto Value Cost Drivers

Ran k	BOQ Item Description	Qty	Unit	Unit Rate	Final Bid Total
#1	Concrete slab 1:2:4	50.0	m3	₺ 0.00	₺ 0.00

Aggregated Material Volumes (Operational BOM)

Resource Name	Qty	Unit	Basic Price	Estimated Cost
TOTAL MAJOR MATERIAL VOLUME BUDGET				₺ 0.00

4. Supply Chain & Cost Modelling Benchmarking

Audits subcontractor package commitments against internal target estimates, and presents cost per square meter benchmarking.

Supply Chain Package Commitments & Variances

Package Name	Awarded Subcontractor	Award Value	Target Budget	Variance
TOTAL SUBCONTRACT COMMITMENTS		₹ 7,000.00		

Cost Modelling Benchmarking

Parametric Variable	Configured Simulation Model Settings
Building Target Type	Residential House
Regional Pricing Factor	Accra
Quality Finish Specification	Standard / Medium Quality
Architectural Complexity	Moderate (1.15x)
Site & Ground Conditions	Standard Flat Ground
Gross Floor Area (GFA)	150.0 m²
Simulated Target \$/m² Rate	₹ 0.00 / m²
Actual Bid Project \$/m² Rate	₹ 95.83 / m² (Based on ₹ 14,375.0)
